

Year 10 Transition Tasks

Subject: Geography
Teacher/s: Mr Woolley
Qualification: GCSE
Method of assessment:
Transition Main Task: RESEARCH TASK – At least one side of A4 in writing – use diagrams to help understanding. Find out why tropical storms are getting more frequent and more intense. Firstly, what causes a tropical storm? Where and when do they occur? Give an example of a named recent storm. Where did it occur? How many people were affected? How much did it cost? What were the short term and long term responses to the storm? Watch the youtube clips: https://www.youtube.com/watch?v= 0TCrGtEQM https://www.youtube.com/watch?v=RZ-DCyP1RBc
Transition Question Task: What are the perfect conditions for a tropical storm?
